Applications by Size of Organisation

EPSA 2013: European and National Statistics IV

Cross-administrative projects

EPSA 2013: European and National Statistics V

Cross-border projects

- **Significant evidence of creative responses at European and national level to the continuing crisis**
- **Common success factors i.e combination of:**
 - **Implementation capacity**
 - **Broad stakeholder support**
 - **Political support**

- **Possibility of continuing pursuit of active strategies to promote environmentally friendly economic growth and social inclusion**
- **Potential of transparency to promote better governance and reduce opportunities for corruption**
- **Potential of ICT to enhance trust in government at all levels, improve service delivery, reduce costs and enhance citizens' experience**
- **Scope for partnerships, mergers and collaborative ventures to improve quality of public services**
- **Potential for centralisation of procurement and service management to reduce costs and promote innovative service delivery solutions**

- **Significant pressures remain, particularly on health and social care budgets**
- **Significant challenges remain, particularly to actively promote business innovation and growth and remove barriers to it**
- **Innovative policy responses are potentially within the reach of all European public administrations if they seek out and adapt good practice from others**

- GreenEvo – Green Technology Accelerator
Ministry of the Environment (PL)
- Towards a Paperless Administration
